PROJECT 01

I had the opportunity to interview members of the community and the police department at a Taco Time Community Event. A time for the community to ask the police department how we can strengthen our relationship with them. I wrote a script, edited the clips, and produced my own audio story. I gathered my own b-roll and room tones to create a full story.

PROJECT 02

I had the opportunity to interview members of the community and the police department at a Taco Time Community Event. A time for the community to ask the police department how we can strengthen our relationship with them. My article was published in the *Cobb County Courier*. I gathered information about each person to develop my article.

I also wrote an article on the different vendors that were at the Peachtree City Farmers Market.

PROJECT 03

I wrote, recorded, edited, and produced 7 episodes of my own podcast on *Spotify* called *Beyond the Beat*. It is based on my experiences as a former competitive dancer, exchanging stories with fellow dancers, and discussing dance legends.

PROJECT 04

I was an intern for the national radio show *The Bert Show* in the Summer of 2024. I had the opportunity to speak on-air with the main cast, gather city headlines, index the daily shows, and so much more! Here are some samples of my work!
